

Linda Coniglio

Innovative Discovery

Director of Privacy and Information Governance

Topic: Shrinking the File Share Beast

What dark, risky data is lurking in big, unruly file shares? Lots of organizations aren't sure. According to a recent InfoGov World survey, legacy data clean-up projects are the #1 project IG Practitioners would like to undertake. Join this presentation to learn practical ways to get started.

Linda has been working with large-scale, key customers for over 20 years on Governance projects to implement content management, records, eDiscovery and privacy compliance solutions.

Linda earned her CIPP/US certification from the International Association of Privacy Professionals. When Linda is not working on Privacy or Info Gov projects, you'll find her cycling or skiing in the Colorado mountains.
